HONGEONG, NOVEMBER 22nd, 1889.

SIR G. WILLIAM DES VOUX has addressed to the Secretary of State a despatch of portentous length and no little magniloquence et language, on the condition and prospects of Hongkong and on recent events in the colony. His Excellency has now administered th Government for two years, and in his report he gives information and statistics showing the progress of the colony during and before that time. The record is certainly a remarkable one, and the colony is indebted to His Excellency for impressing on the home Government the importance of this distant dependency. As His Excellency bimself remarked at Wednesday's Council meeting, the report, though primarily intended to make the colony better known-and somewhat more justly appreciated by out side roaders, may nevertheless in some particulars not be without interest here. Of interest it undoubtedly is, but is bardly adapted to do duty for the usual sessional speech of the Governor. the absence of which this year, is to regretted. The report is at present appearing in our columns, and we propose to-day to notice briefly sems of the points touched upon which appear to admit of controversy The increase in the revenue noted in the earlier paragraphs of the report is highly gratifying, but exception may be taken to put forward in paragraph lightness of taxation. The rates in the town of Victoria are fixed at 13 per cent. of the annual rateable value. which His Excellency says compares very favourably with those of the principal towns of England, ranging he understands from 20 to 30 per cent. But taking into consideration the much bigher rentals on which the rates are levied it will be found that the tenant has to pay about twice as much as: paid in England. We are speaking now of middle-class European tensments. On the Chinese, who are so economical of house room, the incidence of taxation per capitum is no doubt light. In connection with land sales receipts His Excellency briefly discusses the policy of high premiums and small rents or high rents and small premiums. To act on the former, he considers, is unduly to sacrifice the present to the future, and we port. agree with him. We would advocate indeed that the remaining Crown land should be seventy-five years, subject to a revision of rent on renewal. In paragraph 65 His Excellency

speaks of the great increase that has of late

Decessarily inour, the theory that the com- Galon ...

munity as a whole should profit more directly than it does from the increase in the value of landed cutate appears well worthy of consideration.

Governor speaks of the new water-works as time on account of a birth having taken place in being "as yet pocuniarily unremunerative." Does this point to a future increase in the | water rate? This is the only means that nunerative. The community we think would warmly resent any attempt in this direction, unless under pressure of severe The purest ingredients only are used, and that system was in force—was set aside the time and it is impossible now to go hind it. The fund of course was very

the utmost care and cleanliness are exercised in he used for some special spurpose for the benefit of the Chinese community. This arrangement is not one that would meet with our support if it were still open for discussion, but it was definitely settled at North China Famine Relief Committee, publish far tors of relief in different districts, official acwhenever practicable, are despatched by first from paying for the works, but in effect the knowledgments, statement of accounts, do Government said, "We will take this money which has been set seide for your benefit and as a return will give you a good water supply." This being so an increase o the water rate in order to make the works the state of the colony's finances rendered the heading of " Military Expenditure" we must also dissent from Sir William Das

Voux. His Excellencey is opposed to suy increase of the military contribution, in which, needless to say, we agree with him, but GINGERADE he goes further than this and urges that the Imperial Government should pay for what- Moore, gave an excellent exhibition of equestrian ever further land they require for military ism. The Japanese juggler, Ska, is a new addipurposes and should also be fated: We fail tion to the Company and should prove of considerto see by what argument this theory could able service. His various feats were performed be supported. The island was acquired by with a dexterity that places him is the front rank Great Britain, partly as a trading station, but primarily as a military and neval stronghold, and the land vested in the Crown. To No artist throughout the evening was received propose that the Crown, that is, the Imperial revenue, should pay the inhabitants who have come since the island was acquired - an. His performance though good was not for the privilege of being allowed to defend quite up to his usual average, Mr. Lee being it, is a rather cool-proposal, to say the least evidently a little "stale" after his sea trip, but mon sense should be allowed to prevail. It is pitiful when the Naval or Military sutborities act simply as obstructives and

prevent the development of the colony by the opening up of communications, but on as hopeless for the colony to attempt to tax greated with applause on entering the ring, in the Imperial establishments or to make troduced the trained horse "Richmond," whom he them pay for what Crown land they require. put through various tricks with considerable suc-Education" and are glad to note that

step is to be made in the direction of promoting female education by the establishment of a Central School, for girls. Under the head of "Afforestation " we are astonished to find that the Governor appears to have formed such a very erroneous opinion of what has been done in the direction

of tree planting. He says :-The work of Afforestation, begun in 1981, is being still continued. According to a return furnished by Mr. Ford, the Superintendent of the Department, 374,882 trees were planted in 1887 and 682,325 in 1888. the number planted altogether having been 6,676,207. Orders for extra copies of the Daily Press should observation, a very large proportion of these plants shribs. I am awaiting a report from Mr. Ford the actual extent of success, with the cause of failure, before considering what measures should be taken

Seeing that the work referred to covere Lee, who gave a clever performance on the "Poonly nine years, and that the trees vary landic Ladder." In this act Mr. Lee balances from one year old upwards, it is natural himself on his head on an upright pole with a cirthat many of them must be still shrubs. The way to test the success of the afforestation work is to compare the appearance of the hill sides now with what it was ten years ago. The Governor, of course, being a stranger, is unable to do this, but even he might sec that the trees have not failed, for there they are garies of Mr. Harland were greeted with on the hill sides to prove the contrary. His the heartiest laughter. After the sketch at the time of its acquisition comparing its present appearance with what it was then. Nothing would strike such an observer more than the change which has been produced by afforestation. It is a matter of almost every day experience that former re-

in this way. Under the head of "Gaols" it is satisfactory to note that the number of prisoners has during the last few years been declining, due, it is believed, to the severer discipline introduced into the gaol. The pampering of criminals which formerly provailed, and which was so vigorously protested against by the Press, was almost an incentive, and was certainly not a deterrent to crime. Under the heading of "Public Works" account is given of works recently completed anction of the East and West Prayer were forwarded to the Secretary of State early in the year and. His Excellency hopes "that an improvement so absolutely needed for the welfare and progress of the colony will not be long delayed.' In the concluding portion of the report His ance was a decided success and is well worthy phasis on the growing prosperity of the place and draws a brilliant picture, but not more brilliant than the circumstances

## WOODYEAR'S CIRCUS.

A very large house assembled at Bowrington remunerative would be unjustifiable, unless on Wednesday evening to welcome back Woodyear's Circus after a lengthy and successful tour such a course absolutely necessary. Under in Japan. The performance as a whole was quite up to the standard attained during their last stay in Hongkong, in several points it was even superior, and while the programme is necessarily in many points unchanged several novelties are introduced. The entertainment opened with a riding not entitled the "Melbourne Cup Entree," in which the whole Company, led by Miss Alice of professors of his art. Several of his tricks are, we think, new to the Colony, while even in the old ones he manages to introduce something fresh. with greater applause. Mr. Laverti Lee is well known here and elsewhere as a clever equestrionce more settled to the collar. The Brothers Value are also strangers to Hongkong, but their trapeze act, with flying leaps across the whole length of the tent is one of the strongest points in the programme. The last leap, in which one intendent of Police, Vice-President; Hon. N. G.

unnecessarily locking up 1 and or opposing of the brothers, blindfolded and enveloped in a Mitchell-Innes, Acting Registrar General; Hon. sack, swings across and is caught by the other, Wong Shing, Dr. Ayres, Colonial Surgeon; Mr. the other hand it would be absurd as well is well worth seeing. Mr. Woodyear, who was Passing over "Legislation" we come to cess. The "aboulder perche," in which Scadaski on a huge bamboo, she going through various feats while in this exalted and trying position, is another of the items which "fatched " the andience, both performers being rewarded with loud applause at its close. The first part of the programme concluded with the appearance of Mr. Schadel in the equestrian act in which he was so successful on the last occasion he was here. Mr. Schadel is an artist who never spares himself and he appears to have lost none of the " go which rendered him such a favourite on his last

After an interval of ten minutes Miss Alice In so far as I have been able to judge from personal Moore opened the second part of the programme have either failed altogether, or are metely stunted with the "Garland Act.". In this act Miss ascertain the cause of the high death rate at Moore again showed that she is a graceful and Kowleen: On the second week's returns daring rider and bids fair to become a most successful equestrionne. She was followed by Mr. cular top of exceedingly small diameter, and while in this position goes through various contertions concluding by firing a pistol and drinking a glass of wine. Messrs, Harland and Love then made their appearance in one of their popular comic sketches. Both artists showed humorous powers of no mean order, while the va-Excellency in the concluding portion of his Mr. Woodyear again entered the ring and report imagines a person who saw the island | gave a performance with the two trick ponies "Duke" and "Sultan," who with one exception showed themselves a credit to their trainer. The single exception was in one of the ponics refusing to take a leap over the back of another and larger pony introduced for this purpose. For some reason or other, although he has performed the same trick here many times before, he posisidents revisiting the colony are impressed tively refused to take the leap. However as Mr. Woodyear gently but firmly insisted, the pony eventually did what was required of him amidst loud applause, and then made compensation for his previous failing by tak. the returns are only for a week and the rate is ing a flying leap over the same pony and another calculated at so much a thousand you do get standing side by side. Scadaski and his sister startling figures. then took a turn and went through a very clever scrobatic performance concluding with the well known feat with the tubs. The programme was brought to a close by an equestrian act in and three the next you have an increase of 200 which Mr. Schadel gives an exhibition of extremely artistic riding with the assistance of five horses. With the exception of the comic and of those projected. The plans for the sketch already mentioned the fun of the evening was entrusted to the clown Myrtine. Myrtine worked hard throughout and made a little ancient and he might considerably improve on his performance by the introduction of a few fresh "wheezes." Taken

both indiv lually and as a whole the perform-Excellency gives a "Review of the leading of a visit. The Company play at Bowrington (Saturday), commencing at three o'clock punctually.

## FOOTBALLHONGKONG FOOTBALL CLUB. C. NAVAL AND

MILITARY FOOTBALL CLUB The above match was played at Wong-neichong yesterday afternoon. Play was timed to commence at 4. 15 p.m., but owing to a number of the players not turning up punctually, a sequele is such as to stamp the abverity of the fever start was not made till nearly half-an hour after the advertised time, with the result that darkness came down before the game was finished. The Neval and Military Club having won the toss, elected to play from the village end of the ground. For some five minutes after the ball even character, little healway being made on either side. Lunney then got a chance and with a good run took the ball into Hong-

to the front, but the play was a lit Wilson the wild and the ball was sent over the line Laty considerably wide of the location of the goal. Horor, age and Ram, Maitland, and Atkinson made to a endden fall of the temperature, so when the

We hear that the new Colonial Secretary the Liberta lively for a short time and carried the interment is made that the fever as Liberta lively for a short time and carried the interment is made that the fever as Liberta lively for a short time and carried the Hon. Francis Fleming, C.M.G., is expected to fighting into their opponents quarters. The Club then responded, but a somer, of which nothing came, was the only result. Again the Club returned to the charge and some smart play on the part of White, Gorman and Lunney put Hongkong in danger of having to lower their colours, the goalkeeper having to use his hands to save his goal. This made them a little more careful and their play, which up to this time had been somewhat loose, considerably improved, and though owing to the smart play of their oppopents they failed to score, their own gos from this stage to the call of "half time was never in danger. When the ball was started after the usual interval, Hongkong's play was still of good quality and repeated attempts to score were made. Ram, Atkinson, Wilkie and Maitland getting the ball all but gan before the cold weather set in. The minute between the posts more than once. The Club's

favour by Lunney, who making one of the best runs of the afternoon, carried the ball into Hongkong's "twenty five." Here, however, a splendid kick by Macdonogl averted the danger for some time. Hongkong then worked the "leather" slowly up the together with a sketch map of the famine div tricts in the provinces of Kianger and Anhwei. field and Ram passing to Ballock, the latter made a smart spin and then centred to Atkinson. H however was so surrounded by the Club men that his shotat goal was ineffectual. Again Lunnes well backed by Gregory and Brown, was on th warpathand took the ball well into his opponents territory, where after some quick play it was shot through the goal. Hongkong raised an objection on the ground that the kicker was of side, but were overruled. From thence to the might very well add that if the Governor would as well as commercial, centre. call of time, with the exception of an occasional like to have it the Sanitary Board would sub. 9.—It will be observed that a comparison be. report of the Surveyor-General on the rain relief by their forwards, the play was almost ontirely confined to Hongkong's end, but some good play on the part of the backs, especially

A meeting of the Sanitary Board was held yesterday afternoon. There were present :-Hon. S. Brown, Surveyor General, President Major General Gordon, Acting Captain-Super-N. J. Ede, Dr. Ho Kai, and Mr. H. McCallum

The minutes of the last meeting were read Mr. FRANCIS.

A letter was read from Mr. Francis, dated 20th November, stating that he was leaving Hongkong for a month or six weeks from the 21st and would be absent from the Board meetings for that time. He forwarded to be laid be fore the Board's memorandum on the propose by-laws under sub-section 12 of section 13 of the Public Health Ordinance.

PHYER AT KOWLOOK. The mortality statustics for the weeks ended 9th and 16th November were laid on the table. The returns had been direulated and several minutes had been made on them. The first minute was by Mr. Edd asking "What is the high death rate from fever in the Kowloon district attributable to ?" Dr. Cantlie made a minute of his intention to send in a communica. tion subsequently. Mr. Francis made a minute to the effect that steps should be taken to warded to the Secretary of State for the Colonie previous week as to the cause of the high mortality from fever at Kowloon, and no statement made as to whether any steps had been taken or could be taken towards ascertaining the cause: the Sanitary Superintendent must something. The Colonial Surgeon made

minute to the effect that it would be something to the purpose if the death rate from fever was compared with that of last year. The SECRETARY, having read the minutes. said he had been making inquiries on the subject but they were not yet complete. Mr. EDB asked if Dr. Cantlie had sent in his

The SECRETARY said he had received a memorandum from Dr. Cantlie. The President-May I ask what was the and that of 1888 (\$1,557.800) was larger than number of deaths from fever during the week in

makes a great difference. The VICE-PRESIDENT—If one dies one week

per cent. You must take the returns over a long period.
The PRESIDENT—Yes, but nine deaths in one week is a large number. The COLONIAL SUBGEON-It is not easy to explain the causes. The Commission which sat

two years ago did not succeed in explaining the cause of malarial faver at the west end of the very fair clown, but some of his jokes are town. The things that were complained of remain very much as they were then, and the next year there was no fever at all. memorandum by Dr. Cantlie:-To Secretary, to Sanitary Board.

SIR. - The death rate at Kowloon from "fever" is so high that it would seem imperative to enquire into the nature of the so-called " fever." So highe deathevents and of the condition and prospects of for ten nights only, when they will move to the rate from ordinary malarial fever is rare, and it may he Colony," in which he dwells with em- Chinese quarter of the town and play for the be that there is some other element present perhaps has this summer been the seat of a very severe form. fever. In two houses, the immates (Europeans) have enffered severely; in one of the two houses all the immates were attacked, and in the other lives were in considerable jeopardy. In many houses in Kowloon besides, alarming cases of high temperature from "fever" oncurred. The fever is of the continued type with paroxysomal

exacerbations of high temperature.

I am aware of only one death amongst Europeans, that of a Constable at Yaumati. The proportion deaths amongst the Uninese is to my mind propor. tionate to the fever rate amongst Europeans. The sequels of fever in cases of more than one of the Europeans are of such a nature that unless careful treatment had been obtainable almost certainly more deaths would have occurred. The nature of the aigh death rais amongst the uncared-for Chinese. cents, and 5 cents manufactured at Hor Majesty's elsewhere, there is every prospect of a sufficient this with the records of the north ending the death rais amongst the uncared-for Chinese. cents, and 5 cents manufactured at Hor Majesty's elsewhere, there is every prospect of a sufficient this with the records of the north end of the supply of funds to meet the necessary cost with 1888. I find that the annual average is 84.84. In the Summer of 1888, it is perhaps worthy of Mint for this colony) appears to be almost insection. mention that the only death from fever cocurring thable; and if from any cause there is delay in out increase of taxation of the fever seems to be coincident with the change from extreme heat to sudden cold which took piece at once rises to a premium, which has been shout the beginning of November. It must be observed, moreover, that Kewloon the meantime is being built over at a great rate.
Many new houses have been occupied immediately upon their being Snished, and the soil has been and is being turned up to a great extent. I would ascribe the prevalence of fever at Kowloon to be caused by the sudden fall of temperature in a malarial district,

the malarial poison being rife owing to :-(2nd.) The extensive turning up of the soil.
(3rd.) The occupation of newly built houses.
(4th.) The flat nature of the district preventing It is worthy of note that two years ago the western district of Hongkong was attacked by fever during the mouths of Movember and December subsequent

ed coincidently with a sudden fall of remperature must not be taken as exceptional. Moreover, it is well-known that those who have gone to Europe after living in malarial districts are liable secessions of fever at the commencement of the cold weather, so that the contention held two years ago that there must be something wrong with the western district because fever occurred during November and December, receives again a refutation from the date. of the prevalance of fever at Kowloon, and from the analogy of the relapses of fever in colder climates. In conclusion I would submit

1. That the prevalence of fever amongst the Chiiese is in proportion to that occurring amongst Europeans in Kowlcon. 2. That the known severity of the fever amongst Europeans would lead one to expect a high death rate amount the Chinese. 3.-That there is no reason to infer that the nature the disease is other than malarial.

4. That the remedy is to be found in attention to the well-known anti-malarial principles. - Yours faith-(Signed) JAB, CANTLIE.

THE GOVERNOR'S REPORT ON THE CONDITION AND PROSPECTS OF HONGKONG.

The following is the first portion of the report which His Excellency the Governor has foron the condition and prospects of Hongkong, a portion of which we reproduced yesterday:-

Gavernment House, Hongkong, 31st October, 1889. My LORD.—In connection with the Blue Book for 1888 (forwarded with the usual Colonial Secretary's report during my temporary absence in the late Mr. Stawart's despatch No. 237 of the 2nd ultime) I think it may prove of interest that I should make some observations. at the same time giving additional information and statistics in respect of the present condition of the colony and its progress in the two years

during which I have administered the Govern-

2.-The Ordinary Revenue shows a constant tendency to grow in amount pari passes with the increasing population and wealth of the colony; in any former year. The increase by com-1887 (\$1.427.485) was prin cipally in (1) "Stamps" which advanced \$ (87,150 from \$170,233, (2) "Municipal Rates which afforded \$360.291 in the place of \$332,863 of \$137,436, (4) "Miscellaneous Receipts," prin-

was, no doubt, largely due to the increased business and wealth of the Colony. That in "Municipal Rates " was, however, more immediately occasioned by the better assessment of property which was brought about byan officer recently appointed for this special duty. I have reason to believe that there is still much opening for improvement in respect of valuation, and that from attention to this point as well as from the same thing. If one or two people die it the largely increased value of property, there should be a still greater advance in this item during the next few years.

> tively new item of revenue, and is shewing a ary elsewhere, and imposes duties which are constant tendency to increase. Appended is a probably more in number and far heavier in table showing the number of coins issued since degree than are required for any similar area or the supply commenced, together with the profit population in the world.

All things considered therefore, it seems I refer to the above facts therefore merely for open to question not only whether Hongkong

8. Land premiums" (the sums received for The PRESIDENT-May I ask one question as leases of land sold by anotion) which, being wiseregards the Chinese population. How is the ly separated from "Revenue," are applied to show an enormous increase by comparison with In the absence of some calamity, such as war, main large for some years to come, and that

already obtained from the same source-this year in the first three quarters) is \$155,200. As only a very small proportion of the available building sites in the Colony are as yet leased, it Mr. EDE said he thought the next step was may be expected that the cost of the public works required will for a long time to come be with a recommendation that public isundries be largely defrayed from this source, and this stablished and measures taken to improve the especially if Hongkong should, according to

tween the year 1887 and 1838 shows an advance storm of the 29th and 80th May giving details a somewhat larger proportion than formerly to

The PRESIDENT said he knew the matter had direction, partly by the consideration that of my advisers suggested a doubt whether General (Mr. Cooper) estimated at \$3,400. Owing to the increasing value of land it is imwhether this doubt had substantial foundation; change was effected-have, in most instances, been higher than they have ever been before for land in the same localities. I am disposed to think that a further advance may safely be made in the same which have arisen from the rackless sale of the carious nature of some important items of our present Receipts, I cannot but think that would be worth while, even at some eacrifice present advantage, to apportion a larger share

of the proceeds to permanent income. 10.—This consideration will be kept in view and if it should be found inadvisable, for the reason above indicated, to further increase the rent fixed in connection with the auction sales, it may perhaps be expedient to attain the same object by giving purchasers the right of com muting the premiums for increased rent. terms which would be likely to induce its exercise. 11.-Though the total expenditure of the year 1898, \$1,992,329, was somewhat smaller than that of: 1887, \$2,023,002, this was entirely due to a large decrease in "Extraordinary Expenditure "on " Defence " and other permanent works, the aggregate dost of which, in 1888 was only \$580,870 as against \$744,820 in 1887 Ordinary Expenditure however increased from 181,273,181 in 1887 to \$1,461,459 in 1898, a result which might be expected from the demands of our rapidly increasing population. It is at the same time satisfactory to note that even this increased expenditure was exceeded by Ordinary Revenue to the extent of some \$95,000.

12.-The decrease in Extraordinary penditure is chiefly accounted for by the fact that our Defence Works were approaching completion and cost only \$62,115 as against \$258,441 in 1887. The Tytam Water, Works moreover cost only \$51.150 as against \$230.811 in 1887. This great enterprise, (which comprises the confinement of some 350 millions of gallons of water by a dam constructed of granite and concrete at a distance of 5 miles from the City of Victoria, and the conveyance of the supply by means of a tunnel 2,450 yards in length, and a cut granite aqueduot for the remaining distance,) was so far completed that the water was let into some of the existing "Meins" in October, 1888. But as "Distribution Works" which are required in menced, it has not been possible to obtain any return in Revenue for this improvement in

supply, and the large expenditure on the works i which up to this date amounts to \$1,137,315 is as yet peonniarily unremunerative. 18.—Not only for this reason, but chiefly because this magnificent supply of water is, and for some time to come must remein, comparatively unavailable, it is unfortunate that provision for "Distribution" was not made at an earlier

3.—The improvement in all of these items period during the progress of the main The delay in this and verious even inore must be chiefly attributed to the weakness of the Staff of the Surveyor General' Department. The extraordinary density of the population living for the most part on or the abrupt slopes of a hill 1,100 to 1,800 feet height, together with the comparatively recent before moon (10 a.m. S.06 inches. 11 a.m. and very rapidly increasing settlement of Europeans on and in the neighbourhood of the summit, requires from this Department, in the interests of public health and safety, a far closer super-4.—Profit on subsidiary coins is a compara- vision of Private Works than is ordinarily necess-

The health of the able tween the hours of I and 5 a.m. of the 30th. mer renders unfit for duty a large proportion and indefatigable Burveyor General, Mr. Price, who has just retired from the service, gradually succumbed and eventually broke down completely in the endeavour, naturally but vary imperfectly Hour ending 12.30 a.m. 0 anocessful, to do the work of several ordinary men; and the Department has consequently now to cope with the arrears and difficulties, resulting from these shortcomings, in addition to the new mands arising from the large increase of populaton. For the above reasons the reorganisation and strengthening of the Department-now under your Lordship's consideration are imperatively required, as it is only by that means that we can hope to make energetic progress in the various sanitary and other public works which are already, and becoming more and more, grievously required. And I refer to the subject in this place in order to show that, notwithstanding the necessitate an expenditure on permanent im- teresting to add that the total rainfall recorded

THE SURVEYOR GENERAL'S RE. PORT ON THE GREAT RAIN STORM.

We vesterday reproduced that portion of the tory portion of the report; giving particulars of the storm itself :-

SIH .- I have the honour to forward, for the Mr. Ene said be thought it would be better to the upset price at which leases are offered for information of His Excellency- the G. werner. send up the report and ask the Governor whe- competition by auction. In the belief that we the following report on the great rainstorm of ther he would like the Board to submit a scheme; had been unduly sporificing the future to the 29th and 3 th May last, and damage caused there-

2. The rainy season of the south west monscon appears to have set in earlier this year than content at first with a short step in the desired usual. During the month of April over 12 inches of rain fell, and of this quantity nearly? inches was due to a storm on the 29th and 30th for a considerable time, but at present nothing heavy charge for defence and other permanent of that mouth, causing considerable damage to works, and partly because the local experience stroots and roads which the Acting Surveyorformally proposed that the report with returns there would not be a loss in premiums first half of May was comparatively dry. I arout of proportion to the increase of reats, rived at Hongkong on the 18th of Mey. The night after my arrival there was a very heavy possible to ascertain from subsequent experience thunderstorm, several buildings were struck by lightning, and 5.94 inches of rain were recorded but as the premiums per acre received since the during the day ending 10 a.m. on the 19th. On the three following days there was an aggregate fall of 5.88 inches, and there were showers at frequent intervals until the 28th. Early in the morning (2 a.m.) of the 29th the rain began and direction. In view of the financial difficulties | continued almost uninterruptedly (although with greatly varying intensity) until 5 p.m. of the Crown Lands and the use of the proceeds as | 30th. Appendix A shews the daily rainfall for ordinary Revenue and bearing in mind the pre- the first half of the year, and Appendix B the the hourly rainfall on 29th and 39th of May. 3. On the morning of the 29th I was at the Peak, and such was the violence of the storm

that (with some others who were staying at the

Hotel) I had to wait a considerable time before

the chair coolies would venture on the descent.

owing to the force of the wind and rain. How-

ever we started about 9 a.m. I shall not readily forget the journey down. I followed the road as, all things considered, it appeared to me a profesable route to the tramway. Along the upper levels the guste of win'l throatened to carry us off the monutain path. During the descent the water rushed in sheets down the steep mountain slopes, the nullahs were full, and the side drains and culverts of the road overflowing. I arrived at the Government Offices about 10 o'clock. Shortly afterwards Mr. Bayne. Overseer (then in charge of streets, since deceased came to report that the great Glenealy culver (which carries the secret water and sewage, and tenverses the century of the city, passing through Wyndham and Peddor's Streets, where several of the more importuit offices, and public build. ings are situated) had burst in several places. Before there was time to ascertain full details a watchman arrived to report that the service Accompanied by Mr. Cooper I proceeded at once to the site. We strived there a little before hoon, and found that the tunnel, or great calvert; 192 square foot in transverse area. which conveys the water of the Albany Nullah under the Tytam service tank was blocked, and the water that should mass through it was pouring over the concrete wall of the tank, and I had washed away a large portion of the earthen bank on the down stream side of the wall, as well as parts of the Bowen and Garden Roads, and had caused considerable damage to the banks of the Ravine. As the concrete walls of the tank were not designed, without the aid of the carthen bank, to resist the pressure of the water, there was good reason for taking immediate precautionary measures, so as to be prepared in the event of the failure of the tank As the Murray Baracks are situated near the Harbour, in the bed of the same valley, 400 feet below the tank which holds some 35,000 tous of water, I requested Mr. Cooper to give immediate notice to the officer in command of the Regiment, there quartered, and proceeded forthwith to inform His Excellency the General Commanding of the critical state of affairs. Orders were at once issued to clear the

4.- I find on referring to the hourly record of rainfall kindly furnished, at my request, by the Director of the Observatory (Dr. Doberck that the rain began between 2 and 3 a.m. of which time 10s inches of rain had fallen. 3.35 inches. 12 (noon) 1.27 inches). There was then an interval of two hours without rain, after which it rained moderately until near midnight. Then began the most appalling thunderstorm within my own experience, or that, I venture to believe, of the majority of the residents in the Colony. For hours flash succeeded flash in rapid succession, and the roll of the thunder was almost numberrupted, while the rain descended in 14.—From various indications it would masses. Several buildings were struck by lightappear open to question whether for years ning and six coolies were killed in a matabed at past the Department referred to has been strong | the Peak.
